

# SAAD ALI

Software Engineer

## About Me

I am a recent graduate in Software Engineering from COMSATS University Islamabad, Sahiwal Campus. Throughout my academic journey, I have cultivated a strong foundation in software development, specializing in frontend technologies such as Vue.js, React.js, and Tailwind CSS. Passionate about delivering efficient and user-friendly solutions, I am eager to apply my knowledge and continue growing as a software developer.

## Language

- English
- Urdu

## Expertise

- UI/UX Design
- Prototyping
- Frontend web Development
- Communication Skills

## Work Experience

### Tower Technologies (August 2023 - September 2023)

I gained valuable hands-on experience working with HTML, CSS, and JavaScript during my internship at Tower Technology Software House as a Frontend Web Developer. Over the course of two months, I contributed to the development of dynamic and visually appealing user interfaces, focusing on responsive web design and improving the user experience.

### Dotgenic Systems (July 2024 - September 2024)

During my internship at Dotgenic Systems in Lahore as a Frontend Web Developer, I worked extensively with React.js, Vue.js, and Tailwind CSS to build modern and responsive web applications. I collaborated closely with the development team to create intuitive user interfaces, leveraging the power of component-based architecture in React.js and Vue.js.

### Final Year Project

I worked on Batch Advisory System which is a web application developed with React.js, Next.js, and Tailwind CSS to streamline academic advisory processes. It features role-based access for admins, batch advisors, and students, enabling efficient management of classes, courses, and student data. With a secure backend, session storage, and cookies, the system ensures seamless and user-friendly operation, highlighting my expertise in modern web development.

## Educational Background

### Bachelor Of Science In Software Engineering

Comsats University Islamabad, Sahiwal Campus  
(January 2021- January 2025)

## Skills Summary

HTML	<div><div></div></div> 100%
Css	<div><div></div></div> 80%
Tailwind Css	<div><div></div></div> 80%
Javascript	<div><div></div></div> 70%
React Js	<div><div></div></div> 70%
Vue Js	<div><div></div></div> 50%
